

Michele Carbaugh

I was born and raised in Tucson. I grew up playing, camping and cutting school to spend time in these very mountains you wish to destroy. I now live out here a stones throw away from where you are planning to mine. This was going to be my retirement home, where I planned to live the rest of my life. Now that is questionable. I urge you to reject the proposed air-pollution permit for the Copper World mine. As it's currently drafted, the proposed permit does litte to ensure the mine protects our air or environment. At a minimum you must require that Copper World mine obtain a Class 1 permit. A class 1 permit is necessary so that the mine is "always" accountable for limiting its air pollution and protecting the environment - no exceptions!
