

## Donna McNeely

Oh for the love of God! This proposed mine threatens to destroy the health, water, air, and home values of thousands of Arizona citizens/taxpayers. (Would YOU want to buy a home anywhere near it? Would YOU want to send your children to any of the schools that are downwind?) Send these Canadians back to where they came from! Please please please do not approve anything they ask for. Please do not destroy the beautiful lives those of us who live here enjoy!
