

Tina Hamilton

As citizens of southern Arizona , we should assume that our responsibilities are to be good stewards, and advocate for the upmost care and precautions for the health of this beautiful area. I urge you to reject the proposed air-pollution permit for the Copper World mine. As it's currently drafted, the proposed permit does little to ensure the mine protects our air or environment. At a minimum you must require the Copper World mine to obtain a Class I permit. A Class I permit is necessary so that the mine is **always** accountable for limiting its air pollution and protecting the environment — no exceptions.
