

## James Ure

I have property in Madera Canyon which would be effected by the blowing dust from the processing of the ore and exposed tailings of the Copper World mine. My concerns are primarily health related. I feel that Class I permit would better ensure my health and that of my neighbors.

I urge you to reject the proposed air-pollution permit for the Copper World mine. As it's currently drafted, the proposed permit does little to ensure the mine protects our air or environment. At a minimum you must require the Copper World mine to obtain a Class I permit. A Class I permit is necessary so that the mine is *\*always\** accountable for limiting its air pollution and protecting the environment — no exceptions.
