

## Myron Calkins

We now know that PM2.5 is far more damaging than previously thought. Require Aluminum Dynamics, Inc. to install appropriate filters to capture and properly dispose of or neutralize the (PM10), the (PM2.5), the (VOCs), the (NOX), and the (SO2).

Approving this abomination will considerably increase the health risks for large portions of the Benson valley, reducing real estate values and chasing away other industries and companies.
