I WANT THE EXACT LOCATION

Because it will allow
for residents living near agricultural fields,
farm workers, and vulnerable people like
children and pregnant women can protect
themselves.

NAME: Obdulia Catalina

ADDRESS: 

I WANT THE EXACT LOCATION of where they are spraying in Lamont, Ca. I live in Lamont, and our town is surrounded by big fields that are sometimes used year round. It is a big health issue for us who live here. This includes our pets too. What if I go walk near a field with my dog after they sprayed pesticide without notice? We both have a possibility to get sick. Its a big health issue. Our health matters.

I WANT THE EXACT LOCATION of where they are spraying in Arvin, CA. My daughter attends the high school in its town and its surrounded by fields. On each side of the school there is fields even behind the school where our kids go out to run for P.E. It is a big ~~heat~~ health issue. Our kids are at school year round. During the winter, spring, fall and summer. We have the right to know where they are spraying to help our kids take precautions on their health.

I WANT THE EXACT LOCATION of where they are spraying in Lamont/Arvin. I am a Lamont resident and there is a various amount of fields that surround us. I live 1/4 of a mile from a field, in which I regularly go to run have my daily runs. I am a worried resident of my health and others health. We have the right to know when and where they are spraying pesticides. Our health matters.

NAME: M. Isabel Ramirez
ADDRESS: [REDACTED]

I WANT THE EXACT LOCATION cause I want to protect my family
my family is affected already so please don't harm us
more, I like to walk alot with my son; he loves
walking but he suffer astma attacks, I need to know
where they apply pesticides because I live in a
farmworkers community and my house is surrounded
with fields.

NAME: Helena Pasquarella

ADDRESS: [REDACTED]

I WANT THE EXACT LOCATION Now! why is it that 34 of the pesticides being used in our communities are banned in Europe, but allowed to be applied here? Stop protecting ranchers and instead protect farm workers and communities living in pesticide usage areas. What if you lived next to a farm, wouldn't you want to know. We must transition to regenerative farming models that are more sustainable. You are poisoning our communities and mother earth!

I WANT THE EXACT LOCATION

Hello, I am a co-founder of Future Leaders of Change and a Safe Ag, Safe Schools member. I urge you to add exact location!

NAME: Noemi Chico

ADDRESS:

I WANT THE EXACT LOCATION

Hello, I'm a parent and a member of Safe Ag, safe schools & proud mother of Alexia Rangel a Co-Founder of Future Leaders of Change. We have been going to Ventura, Watsonville, Sacramento, Tulare, Truckee & now Shafter to have exact location! We need to protect our children and our campesinos, our indigenous & people of color, our community! We are here to remind you that we are the producers & consumers of fruits & vegetables, protect us!

Pesticide Reform

I WANT THE EXACT LOCATION

We need to know the exact location of where pesticides are being sprayed, not just the general area, so many of individuals from what communities are exposed to high levels of pesticides that cause cancer, birth defects, and even more health problems. The community deserves to be protected.

NAME: Alan Shorb

ADDRESS: [REDACTED]

I WANT THE EXACT LOCATION as a simple matter of fairness.

Given the distribution of oral comments tonight, this is clearly an issue of environmental racism.

Further, secrecy in any human system almost inevitably leads to abuse by those in power. I have many examples from my 26 years. In particular, DPR's goal of sustainable pest management by 2050 which is already way too late, could be in jeopardy as a result of abuse.
