

Postcards Anonymous

Name: Lolita Diaz

I want the exact location 592 people population why do you give us pesticides -- do you not care our families are sick some already dead--pesticides are poisoning our families
Can you please alert us-- by text the address for scheduled application--the chemicals you know are harmful--and its your mission to protect human health

Name: Deborah Paalman

I want the exact location Please have the farmers notify the workers where and when the pesticide is applied before applying pest

Name: Itzel Miranda

I want the exact location As a Fresno-born citizen, it is crucial to inform citizens of the exact location of pesticide application. Pesticides have affected not only the field workers that interact daily with the pesticide, but all of Fresno citizens as well.

Name: Tania Cornelio

I want the exact location It is very important to include the exact location of where the pesticides will be located. This is important for the safety of farmworkers and those who live in the Central Valley. We need this action NOW!

Name: Lourdes Medina

I want the exact location I have lived in Central Valley, CA since 1981 and have seen how pesticides changed the life and future of my friends who worked in the fields. Please know that it is important to include "Exact Location of Application" to the Notification to the CAC. Please know this is important not just for the workers. This important for business and residents near the areas of application. We can all work and live safe and Healthy.

Name: Analie Diaz

I want the exact location of application of pesticides. As this is something that directly affects our friends working in the fields. It is important to keep all our community members safe. Again we ask to have the exact location of application added.
