

Ojai One 501c3

In the Draft - Scope of Work, Objectives page 3:

Primary to your objectives with the EJAC are "to intergrate environmental justice", "Uplift diverse perspectives and community experiences", to "Identify Barriers".....

I do not see how this is possible when those who most devastatingly experience the physical damage from pesticide overspray are the most shut-out of the process for lack of intelligent pointed outreach..

Please rank nominees, weighted in favor of those in the lowest quartile of the HPI Index.

Diversify and expand the parameters for inclusion. pesticides not only affect farmworkers, but school children who do P.E. Adjacent to Strawberry fields being sprayed here in Oxnard Ca.

80 percent of farm warmers in this region are Mixteca and many neither read nor write.

Represent Ventura!
