**SUBJECT: Comments on Department of Pesticide Regulation Pesticide
Prioritization Process Workshop**

Dear Jennifer T. Teerlink:

The Sacramento Stormwater Quality Partnership (Partnership) member municipal separate stormwater system (MS4) agencies jointly implement a monitoring program to satisfy the monitoring requirements of National Pollutant Discharge Elimination System (NPDES) Order NO. R5-2016-0040 (Permit). In reviewing Department of Pesticide Regulation's (DPR) proposed Pesticide Prioritization Process, as was presented in the April 8, 2025 Workshop, the Partnership supports the comments and recommendations outlined in the California Stormwater Quality Association's (CASQA) comment letter. The Partnership finds that CASQA's comments to be representative of the concerns we, as municipal stormwater Permittees, have about the Pesticide Prioritization Process.

Thank you for considering our comments. Please contact Matthew Keene (916-874-3768) or Lisa Moretti (916-808-5390) with questions on these comments.

Yours truly,

(On behalf of the Sacramento Stormwater Quality Partnership)

Lisa Moretti
