

## Judith Smith

I am adding to my previous comment to include my opposition to:

1. Removal of all permitting requirements for users
2. Exempting grocery stores
3. Exempting restaurants.

These exemptions would add well over 100,000 new locations to those which can use AR baits, with a much lower barrier to entry for pesticide professionals. This is a clear violation of California law's language instructing CDPR to reduce threats to non-target wildlife before loosening AR restrictions.

Sincerely,  
Judith Smith
