

Margaret Roth

It is unacceptable and antithetical to me and most Californians to roll back AB 1788, AB 2552 or AB 1322. We've worked hard to ensure that no anticoagulant should ever be used unless there is a critical environmental emergency necessitating their use. These pesticides end up killing far more than rodents, and the dangers to wildlife and raptors are well known. DPR is legally obligated to protect wildlife, allow the proposed changes would do just the opposite.

Thank you,
Margaret Roth
