

Abigail Rizzo

I am a California resident, and I support a total ban on anticoagulant rodenticides and in strong opposition to any changes to the regulations that would give exemptions for the use of rodenticides that would roll back protections gained by state legislation in 2020, 2023, and 2024.

California does not need to rely on cruel, outdated poisons. Integrated Pest Management strategies — sealing buildings, removing food and water sources, and employing non-toxic controls such as contraceptives, snap traps, and electric traps — are humane and cost-effective solutions.
