

Thomas Carlino

No anticoagulant rodenticides should be allowed, except during a declared public health or environmental emergency as stated by current law. No rollback of AB 1788, AB 2552, or AB 1322 is acceptable, and California must invest in ecological rodent control to protect raptors and predators, not more poison.

Anticoagulants are toxic and non-selective, killing the very wildlife that naturally controls rodents. DPR is legally obligated to protect wildlife, not poison it. Allowing more than 100 days of poison use ensures continued contamination of predators, pets, and ecosystems. Californians have already demanded poison-free solutions, so DPR must honor the law.
