

# Niel Shaw

All anticoagulant rodenticides should be banned and should not have exemptions for them expanded. Even with existing restrictions, anticoagulant rodenticides continue to kill and harm non-target animals — including mountain lions, bobcats, owls, and endangered San Joaquin kit foxes — through painful internal bleeding by secondary poisoning.

I strongly oppose any changes to the regulations that would give exemptions for the use of rodenticides that would roll back protections gained by state legislation in 2020, 2023, and 2024.

Thanks,  
Nilesh
