

# Matt Rossell

Dear Department of Pesticide Regulation,

I am a compassionate California resident in support of a total ban on anticoagulant rodenticides and in strong opposition to any changes or exemptions to the regulations that would undermine the laws put in place over the past several years.

The harm these poisons cause to wildlife, pets and people have been well documented and there is no reason for their use at all. Safe and humane alternatives exist.

Expanding their use would undo years of progress and I am outraged there is a consideration to undermine California's landmark wildlife protections.

Please, uphold the law, keep all bans on rodenticide currently in place, and work toward stronger wildlife protections, not exemptions for more poison.

Thank you,

Matt Rossell
