

Amy Veloz

Something has to be done about all these horrible rodenticides that are being poured into our environment. Everywhere I go, I see these boxes of poison. I see them at the supermarket, in front of businesses and hospitals. We have predators who eat these poisoned rodent and they are also being poisoned, - owls, hawks, mountain lions, coyotes and cats. It's terribly dangerous and it's causing our apex predators to sicken and die. It has to stop.
