

## Virginia Rogers

I am a California resident in support of a total ban on anticoagulant rodenticides and in strong opposition to any changes to the regulations that would give exemptions for the use of rodenticides that would roll back protections gained by state legislation in 2020, 2023, and 2024.

All anticoagulant rodenticides should be banned and should not have exemptions for them expanded.

Expanding their use, especially in areas like restaurants and grocery stores where these poisons are currently prohibited, would undo years of progress and undermine California's landmark wildlife protections.
