

Baerbel Steffestun

I'm a California resident in support of a total ban on anticoagulant rodenticides and in strong opposition to any changes to the regulations that would give exemptions for the use of rodenticides that would roll back protections.

Anticoagulant rodenticides kill and harm non-target animals mainly predators through painful internal bleeding by secondary poisoning. But also other animals through accidental spills of the rodenticides.

In New Zealand I learned that rodenticides led to the collapse of the wild deer meat industry.

Thank you.
