Daniel Palla

What types of SPM projects should DPR fund? Some ideas for projects to focus on:

- Active ingredients or products on DPR's Continuous Evaluation and Monitoring table
- Emerging pest threats
- Pest prevention
- Pest management coordination between different landscapes, neighbors, and communities

Note: All projects should have an SPM focus.
The crops that have the greatest treated acres of pesticides with the highest signal word.

What are priority topics, communities, regions, etc., to fund?
All Californians are equal. No one is more important than other

Should DPR fund long-term or short-term projects?
Multi year projects

What factors should DPR consider and evaluate when they review project proposals?
Human safely in the field and MRLs for consumers

How can DPR turn information we gathered on third-party food certifications with IPM requirements into a useful resource without endorsing any particular certification or creating a new certification?
We should just endorse Organic. They are the most SPM with good enforcement and it is already developed. If you use others it will decrepit Organic, hurting SPM, and confusing consumers.

If you could have one tool or resource to activate markets for produce grown using SPM, what would you want that tool or resource to do?
Have the state and government agency's purchase CA Organic

What would make an SPM procurement resource useful enough that it would be used to make business decisions?
Advertise Organic
