

Alex Chen

To Whom It May Concern,

Dear California Air Resources Board,

I am writing to express my support for strong and effective amendments to the California Cap on Greenhouse Gas Emissions and Market-Based Compliance Mechanisms Regulation. It is crucial that California continues to lead in climate action by strengthening its cap-and-trade program to ensure ambitious emissions reductions and environmental justice for all communities. I urge you to adopt amendments that prioritize public health, invest in disadvantaged communities, and accelerate the transition to a clean energy economy.

Thank you for considering my comments.

Sincerely,
Alex Chen

Sincerely,
Mr. Alex Chen
