

Torrance Refining Company (Maheshwar Mettu)

Good afternoon Chair Sanchez and Board Members. Thank you for your time and hosting this meeting.

I ask you to please vote to support the proposed amendments. It's important that while we work toward lowering emissions, we keep a stable supply of transportation fuels in-state. The proposed amendments will help keep the remaining refineries in our state, producing the cleanest-burning transportation fuels to meet the demand. We cannot afford another refinery to close in California.

Thank you.
