

## Mark Rivard

As a native Californian and a small business owner I am asking this board, DO NOT pass these Cap & Invest amendments. These amendments will only drive the last remaining California gas refineries out of the state. Gas is already reaching \$6.00+ a gallon. These policies are not helping Californians, nor the environment. These policies have only continued to destroyed jobs while making it impossible for the citizens of California to live in this state. We pay enough, do enough in the eyes of saving the environment, but you all want more while holding no accountability with our tax money.

If all these reckless policies continue this will be the end of California as we know it. This is criminal to the citizens of California coming from a board we never elected!
