

## Roben Kennedy

PLEASE think of the average Californian that can barely pay their bills and DO NOT add yet another cost to oil!!! Gasoline prices affect EVERYTHING! We are BARELY surviving here and are too broke to leave the state! Do not pass yet another regulation that forces oil companies to LEAVE! There is NO replacement yet for oil!!! Importing oil from other countries is CRIMINAL and completely negates ANY environmental gains you are supposed to promote! Let us support our OWN oil and refineries that are MUCH more regulated than any other country in the world!  
CALIFORNIAN NEED YOUR HELP!

@KATYSaccitizen

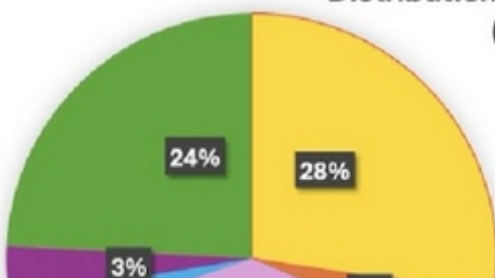

Remember when @GavinNewsom claimed that oil companies were price gouging California consumers at the pump? The @CaliforniaGlobe has refuted this lie easily - it's entirely CA gouging with taxes and fees, and it's about to get worse.

**US Oil & Gas Association** ✓ · 15h

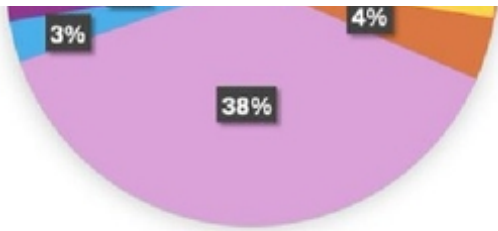

California is about to cross the threshold where the taxes and fees levied on a gallon of gasoline will cost more than the actual price of the gallon of gasoline itself....

Distribution of Retail Price Components  
(Estimated 2025)

- CA Regulatory Costs
- Federal Regulatory Costs
- Crude Oil Costs
- Retailer Net Profit

Regulatory Costs to Consumers	
Regulatory Costs Per Gallon	Cost
CA State Excise Tax	0.612
CA Local Taxes (3.12%)	0.13
CA Cap & Trade	0.26
CA LCFS	0.105
CA Underground Storage Tank	0.02
CA Seasonal Blend	0.12
	1.247

Federal Excise	0.18
Total Regulatory Costs	1.427

For the 2013 to 2025 period, CA's state excise tax on gasoline increased 55%
