

## Diane Ross

To the board,

Please do not adopt the extension of the cap and invest program. We, as taxpayers, can't afford higher prices for gas and consumer goods. This program will increase the cost of doing business in California for oil and gas companies. When these oil and gas companies leave the state, they will take jobs and tax revenue with them. California will then rely exclusively on foreign oil. In closing, I ask you to vote no on extending the cap and invest program.

Sincerely,

Diane Ross
