

Christina Bjergo

Please make the cleanup of Vancouver Lake a top priority. This beautiful area and park is a natural resource for the wildlife as well as a recreational resource for the 175,000 Vancouver populace and others.

I have enjoyed bird watching osprey, bald eagles, herons, egrets and sand hill cranes at the lake.

I and many others enjoy dragon boating, kayaking and stand up paddling but had to stay off the water much of the summer due to algae blooms and ecoli. Families and children (their dogs too) like to swim at the beach but risk health consequences for doing so.

We need to preserve the health of this beautiful lake for the community and our children.

And if I and others can be of assistance we would be happy to volunteer our services to help Vancouver Lake. Please let me know of your decision.

Thank you,

Christina Bjergo
