

Scott Sawyer

Thank you for the opportunity to comment on this issue. I understand that there are so many water bodies in Washington that need attention. But.. I would like to take this opportunity to advocate for making Vancouver Lake a high priority on the TMDL Priority list. I and my family regularly visit Vancouver Lake and have many precious memories of enjoying the various activities the lake has to offer. Between milfoil growth and blue-green algae, we have had to cancel our plans to enjoy the lake on a number of occasions. Thank you for your consideration. I truly hope that you see the value of Vancouver Lake that I do and make it a high priority on your list. Thank you.
