The National Organic Coalition (NOC) is a national alliance of organizations working to provide a 'Washington voice' for farmers, ranchers, environmentalists, consumers, and industry members involved in organic agriculture. NOC seeks to advance organic food and agriculture and ensure a united voice for organic integrity, which means strong, enforceable, and continuously improved standards to maximize the multiple health, environmental, and economic benefits that organic agriculture provides. The coalition works to assure that policies are fair, equitable, and encourage diversity of participation and access. Please see our attached comments in response to the ANPR - Inert Ingredients in Pesticides for Organic Production
