We are writing in support of the NOSB and AMS proposal to add paper-based crop planting aids to the National List at §205.601(o)(2) as a synthetic substance allowed for use in organic crop production and add a definition of paper-based crop planting aids to §205.2 (Terms Defined). As an organic grower, we are confident that these planting aids function effectively the field and in the spirit of the NOP. We greatly appreciate the considerable amount of NOSB resources dedicated to thoroughly vetting this proposed addition and strongly support the findings and resulting proposal. So thank you for your efforts on this matter. We sincerely appreciate it.
