

## Jason cook

As a regular visitor to the Echo Lake area, I appreciate the efforts to improve accessibility and connectivity through the proposed trail and path improvements. However, I have some concerns regarding the potential impact on local wildlife habitats and tree cover along the proposed path. I hope the final plan will include thoughtful mitigation measures to preserve the natural environment and minimize disruption to the ecosystem. I strongly support the addition of pedestrian-friendly infrastructure but encourage the project team to consider sustainable materials and native landscaping wherever possible.

Thank you for the opportunity to provide input on this important project.
