What improvements would you recommend to make the proposed community development project more beneficial to residents, local businesses, and visitors while minimizing its potential negative impacts?

comment

Which aspects of the proposed community project are most important to you? Select all the areas that you believe should receive careful consideration during project planning and implementation.

Traffic and transportation

Public health and safety

Noise and air quality

Other (please specify)

other option

How would you describe your overall level of support for the proposed community project, considering its expected benefits, potential environmental impacts, and effects on nearby residents?

Other (please specify)

other

To what extent do you believe the information currently available about the proposed project is sufficient for residents to understand its objectives, anticipated benefits, and possible long-term consequences?

1- not sufficient

Please indicate how important each of the following considerations should be when evaluating the proposed project, determining appropriate safeguards, and deciding which improvements should be implemented before the project proceeds.

Protection of local wildlife: Slightly important

Reduction of traffic congestion: Slightly important

Control of noise and dust: Not Important

Protection of water resources: Not Important

Transparency in decision-making: Not Important

Please rank the following potential project outcomes according to how important they are to you, with the highest-priority outcome ranked first and the lowest-priority outcome ranked last.

1. Maintaining public health and safety
2. Protecting the natural environment
3. Improving local infrastructure
4. Creating economic opportunities
5. Addressing residents' concerns
6. Ensuring long-term sustainability

How frequently would you prefer to receive project updates so that you can remain informed about construction progress, regulatory decisions, upcoming meetings, and changes that may affect the surrounding community?
weekly
